Day 3/90: Linux Process Fork, Execve, Copy-on-Write & Zombies

Day 3 of 90 Days Linux Internals! 🐧⚡

1. Parent Process (PID 100)

fork syscall parent process ki page tables clone karta hai bina physical RAM duplicate kiye.

```
# CLONE PAGE TABLES
fork syscall parent process की page tables clone करता है बिना physical RAM duplicate किए।
```

2. Copy-on-Write Pages

execve syscall binary ELF code load karke memory space ko naye program se replace kar deta hai.

```
# EXECVE ELF
execve syscall binary ELF code load करके memory space को नए program से replace कर देता है।
```
