Instagram Architecture: 6 Million Lines of Python 3 Serving 2 Billion Users

Log kehte hain Python slow hai, toh Instagram 2 Billion users Python par kaise chalata hai? 📸🐍

1. 2 Billion Active Users

Instagram pura core business logic ek massive monolithic Django code-base par run karta hai without issues.

```
# DJANGO MONOLITH
Instagram पूरा core business logic एक
massive monolithic Django code-base पर run
करता है without issues.
```

2. Monolithic Django App

Master worker process memory freeze karke unhone garbage collector turn off kiya aur massive speed unlock ki.

```
# ZERO-GC FORK
Master worker process memory freeze करके
उन्होंने garbage collector turn off किया और
massive speed unlock की।
```
