Day 3/90: Wireshark, Packet Sniffing & TCPDump Analysis

Day 3 of 90 Days Ethical Hacking & Cybersecurity! 🕵️🦈

1. NIC Interface

Promiscuous mode on hote hi NIC card subnet ke sabhi MAC address packets accept karta hai.

```
# PROMISCUOUS MODE
Promiscuous mode on होते ही NIC card subnet
के सभी MAC address packets accept करता है।
```

2. Wireshark / libpcap

libpcap driver binary payload ko decode karke cleartext passwords aur HTTP headers reveal kar deta hai.

```
# RAW DECODING
libpcap driver binary payload को decode
करके cleartext passwords और HTTP headers
reveal कर देता है।
```
